SUMMARY

Programming, Philosophy, Architecture, Design …

Pursuing a *transdisciplinary education*, I think about *skills as tools to build projects with* instead of just taking them at their face value.

My interests are multiple but never scattered: this approach helps me *to learn how to learn* and aids at *dealing with challenges creatively*.

EDUCATION

University of São Paulo, *Bachelor of Philosophy*
2013 – 2017 | São Paulo, Brazil
A course oriented at critical and conceptual thinking in one of the top 2 universities in Latin America ⬈

Mackenzie University, *Bachelor in Architecture*
2012 – 2017 | São Paulo, Brazil
One of the most prestigious architecture courses in Brazil, an opportunity to sharpen my visual thinking and presentational skills, combining them with a generative approach to design that sparked my interest in programming

Microverse, *Remote Development Program*
2020
A remote software development program ⬈ *in which less than 4% of applicants are accepted. Developed proficiency working with mainstream technologies in web development(Ruby on Rails, React/Redux, Javascript(ES6), SQL) by building 30+ projects.*

REMOTE DEVELOPMENT PROGRAM

Microverse, *Full stack Development Program*
February 2020 – present | Remote
A remote software development ⬈ *program in which less than 4% of applicants are accepted. Developed proficiency working with mainstream technologies in web development(Ruby on Rails, React/Redux, Javascript(ES6), SQL) by building 30+ projects.*

INTERNATIONAL EXPERIENCE

Jiao Tong University, *Exchange Year - Economics*
2018 | Shanghai, China
Santander Grant Recipient to study one year of a different subject as part of my Philosophy Bachelor's Program. I've decided to study economics for one year in Shanghai, developing my cross-cultural skills and quantitative thinking.

Cardiff University, *Exchange Year - Architecture*
2015 – 2016 | Cardiff, UK
Brazilian Federal Government Grant Recipient to study one year of Architecture in Cardiff, UK. An opportunity to level up my English at a vibrant international academic community.

PROFESSIONAL EXPERIENCE

Associação Comercial de São Paulo - ACSP, *Full Stack Developer & Geographic Information Systems Engineer*
2020 | São Paulo, Brazil
Ground-up development of a geolocated research platform regarding retailers in São Paulo. Built with Ruby on Rails and React.

Cremme, *In-house designer and Producer* ⬈
2019 | São Paulo, Brazil
Producer for the exhibition Experimenting Le Corbusier ⬈ *, holding key responsibilities from design choices to guaranteeing logistical requirements.*

Aleph Zero, *Architectural Intern* ⬈
2016 | São Paulo, Brazil
Part of the competition's entries design team at this RIBA (Royal Institute of British Architect's) winner practice. ⬈

SKILLS

Remote working
Pair programmed 40 hours/week for 6+ months in collaborative projects (using VCS tools such as git and github)

Front-end (HTML/CSS/JS)
Including libraries such as SASS, D3.JS

Python
Including libraries such as Pandas, Geopandas, Matplotlib

Ruby
Including TDD (Test Driven Development) through RSpec

Adobe Suite
Photoshop, Lightroom, Indesign, Illustrator

Rhinoceros (CAD Software)
GUI, and generative design through grasshopper and rhinoscriptsyntax (python)

LANGUAGES

Portuguese

English

Spanish

French
